

Data Processing Agreement (DPA)

GDPR Article 28 Compliant Data Processing Agreement

1. Definitions (Art. 4, GDPR)

- **Controller:** Your organization, which determines the purposes and means of processing personal data.
- **Processor:** CSCloudSolutions, which processes personal data on your behalf.
- **Personal Data:** Any information relating to an identified or identifiable natural person.
- **Processing:** Any operation performed on personal data (collection, recording, analysis, erasure, etc.).

2. Subject Matter & Duration (Art. 28(3))

- **Subject Matter:** Processing of Azure cost data and associated metadata.
- **Duration:** For the term of your subscription with CSCloudSolutions. Processing ceases upon termination unless required by law.
- **Nature:** Storage, analysis, and reporting of customer billing and governance data.
- **Purpose:** To deliver FinOps optimization, cost analysis, and governance services.

3. Categories of Data Subjects & Personal Data (Art. 28(3)(a))

Data Subjects:

- Your employees with Azure subscriptions
- Resource owners and administrators
- Your end users whose costs are attributed

Personal Data Categories:

- Email addresses and display names
- Azure AD object IDs (OID)
- Resource tags containing user identifiers
- Usage patterns and cost attribution

4. Subprocessors (Art. 28(2) & (4))

CSCloudSolutions engages the following subprocessors. You are notified of changes and may object within 30 days.

Subencargado	Finalidad
Microsoft Azure	Compute & Storage
MySQL Provider	Database Hosting
Paddle	Payment Processing
WorkOS	Authentication/SSO

5. Data Subject Rights (Art. 28(3)(e))

We assist you in fulfilling data subject requests under GDPR Articles 15–22 (access, rectification, erasure, restriction, portability, objection). Requests should be submitted to privacy@cscloudsolutions.com.ar within 10 business days.

6. Security Measures (Art. 28(3)(c) & 32)

CSCloudSolutions implements:

- Encryption: TLS 1.2+ in transit; AES-256 at rest
- Access Control: RBAC, MSAL/Entra ID integration, MFA mandatory
- Monitoring: Continuous security monitoring and intrusion detection
- Audit Logs: All access logged and retained for 7 years
- Disaster Recovery: Geo-redundant backups; RTO < 4 hours

7. Audit Rights (Art. 28(3)(h))

You (or an independent auditor) may conduct audits of CSCloudSolutions' security and compliance practices. Annual SOC 2 Type II audit reports are available upon request for Enterprise customers.

8. Return/Deletion of Data (Art. 28(3)(g))

Upon subscription termination, you may request data deletion within 30 days. All data will be permanently deleted using cryptographic erasure. Backups are retained for disaster recovery and deleted after 90 days.

Annex 1: Subprocessor Table

See full Subprocessors list (finops.cscloudsolutions.com/legal/subprocessors).

Annex 2: Technical & Organizational Measures (TOMs)

- Technical Measures: Encryption, firewalls, IDS/IPS, SIEM, secure coding practices
 - Organizational Measures: Access controls, employee training, incident response plan, vendor vetting
 - Details available in SOC 2 Type II report upon request.
